

The Aim of the Course is to:

Provide the candidate with the basic knowledge and practical skills involved in operating a Crawler Crane.

The Objectives of the Course are to enable delegates to:

- Be able to operate the machine safely and correctly in accordance with manufacturers' instructions and accepted good practice.
- Carry out a pre-shift inspection.
- Operate the crane safely in response to given tasks tracking where applicable.
- Respond to and work with a Slinger using recognised hand signals.
- Recognise defects and hazards that affect crane motions.
- Have sufficient knowledge and practical skills to successfully complete the CPCS Technical Test.

Who Should Attend The Course?

All personnel required to operate a Crawler Crane.

Course Summary
